

RECLOSABLE BAGS

THE BASICS

Our Reclosable Bags are ideal for a variety of applications, including electronics, food service, and retail packaging. A durable zipper closure ensures that contents remain secure and allows for continued bag reuse.

TECHNICAL DETAILS

Made from 100% virgin Low-Density Polyethylene that meets FDA/USDA specifications. All bags feature a single-track zipper closure and side weld construction. Available in cases.

How Much Does It Hold?

Do you know how much you need to hold, but don't know which size to pick? Check out our easy reference guide to find a perfect fit.

RECLOSABLE BAGS

Comes printed with recycle message

RECLOSABLE BAGS WITH 25% PCR

Our Reclosable Bags with 25% PCR are designed with a portion of Post-Consumer Recycled material, such as bottles from curbside bins, to keep waste out of landfills. A durable zipper closure allows for bag reuse. Due to the nature of PCR, bag clarity is slightly reduced.

TECHNICAL DETAILS

Made from a blend of Low-Density Polyethylene with 25% Post-Consumer Recycled (PCR) material, these feature a side weld construction and hammer sealed zipper closure. Printed with a standard recycle message and packaged in cases.

TAMPER-EVIDENT RECLOSABLE BAGS

Our Tamper-Evident Reclosable Bags are designed to ensure that contents are not disturbed prior to use. Product is bottom loaded, then heat sealed, and can later be accessed with a perforated tear strip located above the zipper.

TECHNICAL DETAILS

Made from 100% virgin Low-Density Polyethylene that meets FDA/USDA specifications. All bags feature an open bottom which can be sealed after product loading, a tear perforation above the zipper for easy opening and a side weld construction.

RECLOSABLE BAGS

RECLOSABLE BUBBLE BAGS

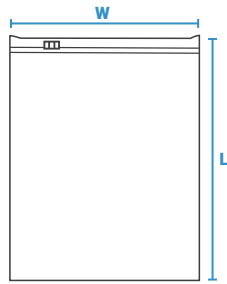

Our Bubble Reclosable Bags are designed for the transportation and shipment of fragile items through added cushioning and protection.

- ▶ Printed in red "Reusable-Do Not Discard"
- ▶ Protects against impact, moisture, abrasion and dust
- ▶ Meet PPP-B-26, Type I or II, Style 3a

TECHNICAL DETAILS

Made from 100% virgin Low-Density Polyethylene. These feature double walls of 3/16" bubble surrounded by two layers of 3 mil LDPE, a zipper closure, and a side weld construction. Ships as dimensional weight.

ITEM	W x L	CNT	WT
